The Buzz About Zoundz

"We've been using Zoundz Music For Pets and it is AMAZING! We've always left music on at home for Tucker, but the reason we love this the most is because you can control it from anywhere. It hooks up to our Google Home Mini and we use our phones to control the volume and song selections. Anytime we're not home, we leave this on. It is 100% Tucker approved. He is SO relaxed when it's on, he doesn't even know we're not there!"

Lindsay Hassert, Adoring Pet Parent

"We have employed the Zoundz Music For Pets program for our dog and cat boarding, daycare, and rescue pet retreat for over a year now and it has delivered a calming effect on our pet guests. Zoundz music is another tangible example for our customers as to why we are the leading compassionate, pet-first business in our market."

Joe Kaddis, Owner, Passage East Kennels

"Zoundz is working really well in our shelter, we believe in it. Our staff has really enjoyed it. I've noticed it walking down the halls. The animals are quieter when it's playing in our dog halls."

Megan Gram, Executive Director at Saving Grace Pet Adoption Center
