

## Changing How We Save Lives Together

It is time for holiday craziness, which is gift and a curse. On the plus side, the holidays bring joy, family and lots of yummy food, but they also bring a ton of year end work as we push for donations and try to maximize adoptions. SavingLife has spoken with a great number of agencies, large and small, and we have heard about your greatest pain points. We believe that telling what to do is fine, but positive results are seen much more quickly if we join you in resolving the issues at hand.

Those on the SAINT platform are experiencing what collaboration can do. For those who may not know about it, the SAINT platform can be used for free and it greatly reduces LOS by enabling agencies of all sizes to collaborate to save lives. click here to learn more.

Our latest offering allows agencies to save money. We already offer one of the lowest priced microchips in the market and include volume price discounts, but we now offer these savings to agencies through their state federation/association/coalition. Read more about this below.

We wish you all a very happy holiday season and we hope you are bored because all of your animals have found new homes.

Visit Saving-Life.com

### Microchips

To help reduce your costs and encourage collaboration, SavingLife is offering volume discount pricing to agencies which are members of their state federation. Therefore, if your agency may not purchase enough chips to take advantage of the volume pricing, you can aggregate your orders with others around your state and all of you benefit. For more information, contact-

info@saving-life.com

To place order, visit [www.GetSaintShop.com](http://www.GetSaintShop.com)

- Microchips comply with ISO 11784 and ISO 11785 standards
- The microchip comes with the disposable applicator and needle
- All microchip numbers automatically become available on the Saint platform ([www.getsaint.com](http://www.getsaint.com))

Single Order Quantity	Microchip	Nanochip	Tags	Microchip - Tag Combo	Nanochip - Tag Combo
100 - 1,999	\$6.00	\$6.00	\$3.00	\$6.00	\$6.00
2K - 4,999	\$4.50	\$4.50	\$2.50	\$5.25	\$5.25
3K - 9,999	\$4.00	\$4.00	\$2.25	\$4.69	\$4.69
10K - 24,999	\$3.50	\$3.50	\$2.00	\$4.13	\$4.13
25,000+	<del>\$3.25</del> <b>\$2.90</b>	\$3.25	\$1.50	\$3.49	\$3.49

**2022 Yearend Special**

- This offer ends on 30-Nov-2022
- Order and payment has to be received before offer ends.

### Our Network Continues to Grow

We make no "bones" about it - our strength is built on numbers. We communicate all the time about the need for collaboration and we have built our organization around this concept. If agencies don't embrace working together, we are no better than anyone else, BUT when agencies of all sizes realize that we can save lives exponentially by simply working with our peers. And I say simply because that is what SavingLife is all about. Making collaboration efficient, effective and simple. Shoot us a note to learn how easy it is.

# The Economy and Animal Welfare

With all of the predictions circulating about the economy and all the different perspectives and agendas in play, it can be tough to shut out the noise and focus on the economic trends and indicators that will help members of the animal welfare industry predict our future donations and adoptions with confidence and plan accordingly. Our next few blogs will look at the economy and its impact on charitable giving and the services offered by animal welfare agencies so you can identify tools to help you clearly see where you stand and reliably forge the path ahead.

## SAINT Agency Spotlight - Kankakee Animal Control

Kankakee Animal Control is located in Kankakee County, IL, just south of Chicago. With just over 100,000 residents, the staff at KAC keep very busy in this rural community. They not only see dogs and cats, but are often called to assist with farm animals. KAC is a strong member of our network.
